

QUICK FACTS* CLEAN FLEET VEHICLE TECHNOLOGY GRANT PROGRAM

Program Open/Close Date

- Program launched on March 29, 2023 and will stop receiving applications on June 30, 2023

Eligible Project Types

- New Heavy-Duty Truck purchases
- No funding for fueling infrastructure projects (Colorado's [Fleet-ZERO](#) provides incentives for charging infrastructure)

Maximum Grant Amount

- 60% of new vehicle cost for Class 8 Battery and Fuel Cell trucks. Applicants may request a lower award total (per vehicle) than the percentage from the table. Doing so may prioritize the application during the review process
- \$30,000 additional incentive if scrapping existing diesel heavy-duty vehicle
- Payment done via reimbursement while state investigates other options

Scrappage

- No scrappage requirement, but applicants who choose to scrap a pre-2010 vehicle may be prioritized in the review process, and will receive bonus funding

Evaluation

- Competitive application process. Scoring rubric, and criteria explanation provided in guide
- Applications reviewed, and scored once application period closes

*Additional requirements may apply.
For complete incentive requirements,
please visit the link above.

Operation Requirements

- New vehicle must be domiciled in Colorado and/or mainly operate from a site within Colorado, with a large percentage of their travel within the state
- New vehicle should be owned and operated by the fleet or individual applying for funding
- In cases where third party who will not operate the vehicles directly applies for funding, information on title ownership of the vehicles must be included with the application
- Fleets must notify agency of intent to move awarded vehicles out of Colorado
- Operational data reporting required for 5 years

Existing Vehicle Requirements

- If applicant chooses to scrap pre-2010 diesel vehicle, proof of registration, proof of operation from a site within Colorado, and proof of insurance for at least 2 years will be required
- Vehicle must be in operational condition

Comments

- Fleets must provide background information on their fleet make-up, indicate level of planning that has occurred for fleet transition, and provide financial information on vehicles and/or technology the fleet plans to acquire
